DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 10/21/2002 has been entered.

Response to Preliminary Amendment

2. Preliminary Amendment filed on 10/21/2002 has been entered. In Preliminary Amendment, claim 30 is newly added. Claims 1-4, 7-9, 10 and 12-30 are pending in the application.

Claim Objections

3. Claims 7-9 are objected to because of the following informalities: Claim 7 depends on cancelled claim 5. Appropriate correction is required.

Election/Restrictions

4. This application contains claims directed to the following patentably distinct species of the claimed invention: 1) A method of forming a Cu alloy (claims 1-4) that reflects to Figure 1, 2) A method of forming a Cu alloy (claims 10 and 12-18) that reflects to Figure 4, and 3) A method of forming a Cu alloy (claims 19-30) that reflects to Figure 6.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. A telephone call was made to on to request an oral election to the above restriction, but did not result an in an election being made.
